Career Objective

Results-driven Web Developer over a year of experience in designing, developing, and maintaining responsive web applications. Proficient in front-end technologies including HTML, CSS, JavaScript, and React.js. Eager to apply my technical and collaborative skills in a dynamic, innovation-focused environment.

Professional Summary

- Proficient in front-end development using **HTML**, **CSS**, **JavaScript**.
- Having good knowledge in front-end library **React.js**.
- Experienced in responsive UI design, performance optimization, and cross-team collaboration.
- Knowledge of debugging tools, Git, **API integration**, and RESTful service consumption.
- Created web applications using **Model View Controller (MVC)** architectural pattern.
- Adept at managing state, routing, and real-time data in **React**.

Work Experience

Junior Software Developer

MannIt Technolabs Private Limited, IndiaFeb 2024 – Present

- Developed and maintained dynamic web applications using **React.js** and **JavaScript**.
- Collaborated with backend teams to design and integrate **REST APIs**.
- Reduced application load time by **25%** through **code optimization**.
- Implemented **UI responsiveness** across all screen sizes and browsers.

Projects Handled

1. ANKA VEDA – Integrated Educational Management System

Front End Technology:	HTML, CSS, JavaScript, React.js
Back End Technology:	Java, SpringBoot
Database:	MongoDB

Roles and Responsibilities:

- Developed modules for teachers to **upload marks**, **assign homework**, and **analyze student performance**.
- Integrated **WhatsApp messaging API** to deliver student-specific test links and announcements.

- Designed a **principal dashboard** to **approve data**, **send announcements**, and **monitor performance**.
- Built a dynamic **question bank** to manage **PDFs**, **videos**, and **handwritten notes**.
- Implemented **exam publishing** with **real-time scoring** and **controlled access**.

2. NEET-JEE Test Series Platform

Front End Technology:	HTML, CSS, JavaScript, React.js
Back End Technology:	Java, SpringBoot
Database:	MongoDB

Roles and Responsibilities:

- Built a real-time **mock exam platform** with **automatic scoring** and **result feedback**.
- Created detailed dashboards with **section-wise**, **area-wise**, and **difficulty-wise analysis**.
- Developed tracking logic for **question timers**, **skipped**, **wrong**, and **correct answers**.
- Enabled **answer review** with **explanations** and **graphical result summaries**.
- Integrated a **leaderboard** displaying **top-performing students**.

Technical Skills

<ul style="list-style-type: none"> • HTML, CSS, JavaScript • React.js • Git, VS Code, Postman • MongoDB 	<ul style="list-style-type: none"> • REST API Integration • Responsive Web Design • Debugging & Testing
