Objective

Results-driven Web Developer with 1 year 3 months of experience in designing, developing, and maintaining responsive web applications. Proficient in front-end technologies including HTML, CSS, JavaScript, and React.js. Skilled in optimizing website performance, enhancing user experience, and collaborating with cross-functional teams to deliver scalable solutions. Eager to contribute my technical expertise and problem-solving skills to drive innovation and support business growth in a dynamic development environment.

Professional Experience

Web Developer — MannIt Technolabs Private Limited, India — Feb 2024 – Present
- Spearheaded the development and maintenance of responsive web applications using modern technologies, including HTML5, CSS3, JavaScript, and React.js, ensuring seamless user experiences across all devices.
- Collaborated closely with cross-functional teams, including designers and backend developers, to design intuitive and user-centric interfaces, enhancing overall user engagement and satisfaction.
- Optimized application performance by identifying bottlenecks and implementing efficient code solutions, resulting in a 25% reduction in load time and improved application responsiveness.

Projects

ANKA VEDA: Integrated Educational Management System

- **For Teachers:**
  - Upload and manage student marks with comprehensive performance analytics (top performers, average, below-average, failing students).
  - Send targeted announcements and homework assignments via WhatsApp with date-wise tracking.
  - Add personalized remarks and monitor attendance through detailed reports.
- **Question Bank Functionality:**
  - Upload and manage diverse educational resources (videos, PDFs, handwritten notes, documents).
  - Create and maintain a robust repository of questions.
- **Examination Module:**
  - Upload and publish tests with WhatsApp delivery of links and scores.
- **For Principals:**
  - Send school-wide or class-specific announcements.
  - Monitor performance and approve teacher-uploaded data.

NEET-JEE Test Series Platform

- Developed a platform for mock tests with section-wise analysis for NEET and JEE aspirants.
- Implemented dynamic question displays.
- Integrated a real-time scoring system that provides instant feedback upon test completion, enabling users to immediately gauge their performance.
- Enabled detailed review functionality, allowing users to view the correct answers along with comprehensive explanations.
- **Result Analysis:** Provided detailed performance analytics displayed area-wise, section-wise, and difficulty-wise.

Technical Skills & Educational Qualification

Technical Skills:

Programming:	HTML, CSS, JavaScript
Frameworks:	React.js
Tools:	Git, Visual Studio Code, Postman
Database:	MongoDB
Others:	Responsive Web Design,Debugging

Educational Qualification:

Bachelor of Engineering (B.E.)
Electronics and Communication Engineering
Velalar College of Engineering and Technology, Erode
2015 − 2019
CGPA: 8.24
